GHX is a proud member of the NAHAD Hose Safety Institute which sets the guidelines for hose specification and fabrication. The guidelines provide a comprehensive set of minimum performance recommendations for the specification, fabrication and design of industrial and hydraulic hose assemblies, all focused on ensuring hose assembly safety, quality and reliability.

A STAR distributor is part of an exclusive Continental ContiTech Select distributor group who maintain the highest level of hose assembly standards to provide their customers greater assembly integrity and dependability. All STAR distributors have been independently audited by Underwriters Laboratories, Inc. (UL) to verify each STAR assembly location follows the NAHAD Assembly guidelines, Industrial Hose Crimp Specifications, has the proper equipment, and uses Hose Tracker™ Online.
